13.2m	175.00	175.00	210.00	210.00

Towers supplied ready to erect with safety toe boards and stabilisers included. Locking adjustable castors included for mobility and safety. The tower heights shown are handrail heights. Tower width measurements are taken from the centre of the upright frame. Do not use access towers if wind speed exceeds 17mph. Guardrail tower information; Tower rigidity due to dual spring loaded hooks, fewer components for a simpler and faster build, AGR frames available for some size decking lengths. Assembly guide available
